Experts say—MARVELOUS!

Some declare—A MIRACLE!

Others exclaim—ASTOUNDING!

Because they are something **New, Different** and **Beautiful**.

Their outstanding new feature is that they bloom on canes and all branches the year they grow as they mature—yes, even the first year; like Hybrid Teas.

Some grow as tall as the tallest Climbers; some as high as pillars, others may be cut back to grow giant Hybrid Tea bushes; 4 feet tall or 8 feet high; a compact bush in the lawn or shrubbery. Removing faded flowers increases rebloom.

They are Sub Zero, like hardy Climbers.

Be the first to show them to your gardening friends.
